

## Energy Tax Credit

The energy tax credits that apply to qualifying garage doors have been extended, amended, and expanded as follows:

- Applicable years are now 2006, 2007, **2009 and 2010** (previously 2006, 2007 and 2009)
- Now equals **30% of the product purchased** (previously 10%)
- Maximum credit **\$1500** (previously \$500)
- U-Factor is now **0.30** (previously 0.35)

To be eligible, the installed garage door must meet the following criteria:

- Must be installed on the taxpayer's primary residence
- Must be installed on a insulated garage
- Must be a perimeter seal (door stop) used as a means to control air filtration
- Must be installed in 2009 or 2010
- Expected to remain in service for at least five years

**Additional details can be found on manufacturer's Certificate.**
